Services

WHO WE ARE

Gap Hammer Co. is a veteran-owned (SDVOSB-pending) AI consulting and automation firm headquartered in Cypress, Texas. We help federal, state, and local government agencies — and the prime contractors that serve them — assess AI readiness, design adoption roadmaps, implement production-grade AI solutions, and provide ongoing managed services. Every engagement is led personally by the founder; no junior handoffs, no offshore subcontracting.

CORE COMPETENCIES — CATEGORY 4 MAPPED

- **AI Assessment:** Current-state AI readiness audits, capability gap analysis, organizational data maturity assessment, model risk and governance review.
- **AI Strategy:** Multi-year AI adoption roadmaps, prioritized use-case portfolios, ROI modeling, governance framework design, change-management planning.
- **AI Implementation:** Generative AI integration, custom agent development, RAG pipelines, document workflow automation, legacy system integration, model fine-tuning, secure deployment patterns.
- **Managed AI Services:** Ongoing model monitoring, prompt and pipeline tuning, agent fleet operations, MLOps support, governance reporting, model drift remediation, user enablement and training.

WHY GAP HAMMER

- **Veteran-owned · SDVOSB pending.** Service-disabled veteran-owned small business; certification active in SBA review.
- **AI-native methodology.** Built for AI delivery from day one — not a traditional consulting firm bolting AI onto legacy practice.
- **Founder-led every engagement.** Trevor Neill personally leads delivery on every contract. No subcontracted execution.
- **Rapid mobilization.** Active commercial engagements deliver production AI solutions in 14–30 days from kickoff.
- **SLED-fluent.** Texas-based; understands state procurement (TXSmartBuy, OhioBuys, BidNet, DemandStar) and CFR/FAR for federal.

RELEVANT PAST PERFORMANCE

► Real Estate Intelligence Platform · *Houston, TX · Active*

Built and operate a subscription AI-driven real estate opportunity platform: automated off-market property data acquisition, Python-based predictive scoring, CRM-backed delivery via GoHighLevel. Each cycle surfaces ~60 ranked opportunities per ZIP, replacing 20–40 hours/week of manual analyst work.

► Local Search & Lead Capture Automation · *Houston Criminal Defense Firm · Active April 2026*

End-to-end Google Business Profile + local SEO program with AI-assisted review acquisition, citation cleanup, and sub-minute lead routing into client CRM. Monthly performance dashboard tracks search-to-retention conversion.

► Business Operations + AI Communication · *Houston Services Firm · Active April 2026*

Custom CRM buildout in GoHighLevel, AI-assisted client communication automation, lead-routing workflow design. Demonstrates production deployment of applied AI in a regulated, high-tempo services environment.
